

Fall 2019 Undergraduate Seminar

Department of Mathematics

Who is the UMS?

UMS Organizers

Math Department, University of Pittsburgh

Date: Tuesday, September 3

Time: 12:00 - 12:50 pm

Location: Room 703, Thackeray Hall

The Undergraduate Mathematics Seminar (UMS) has been around since the Fall of 2014. Since then, it has been the place for undergraduates, graduates, and professors to discuss their research or any interesting mathematical oddities they may find. This seminar also serves to help undergraduates understand the futures of a math major and the many different paths they can take after college. Come for the food, stay for the math!

This introduction will be hosted by the organizers of this seminar. We will discuss certain events we do at Pitt and we can answer any questions you may have for us. It is a laid back environment meant for undergraduates who want to pursue higher knowledge mathematics, though most of the talks given do not require any higher knowledge than Linear Algebra or even introductory Calculus. Food and drinks will be provided!

SPEAKER(S) FOR NEXT WEEK:

Emily Bennett

Organized by: Derek Orr, Tom Everest, Jeremiah Morgan, and Jeff Wheeler
